# GRACE ODAH

## FULLSTACK BLOCKCHAIN DEVELOPER

## Summary

I'm a builder who loves creating products people actually use with AI and blockchain. I work a lot with web and blockchain technologies, and I enjoy turning rough ideas into real working apps. I move fast, learn fast, and I'm always improving my skills.

## Skills

Web development ( React, Nextjs, Tailwindcss)

Blockchain development ( Solidity, Python, OnchainKit )

Databases ( Firebase, Postgress, SQL )

AI / Agents ( Langchain, OpenAI Apis )

## Experience

### Hammet Labs – AI Learning Platform

*( Developer )*

- Built an AI tutor with chat + voice that teaches users in a simple, conversational way.
- Designed a course builder powered by AI to generate learning material instantly.
- Created an onboarding flow where AI guides students step by step.

### RideBase – Crypto Ride Booking App

*( Developer )*

- Worked on a mobile app for booking rides using crypto payments
- Built the app with React Native + Expo.
- Integrated payments on Base ETH
- Focused on making the app easy and fast for users

### JobAgent – AI Agent for Jobs

*( Developer )*

- Built an AI-powered agent that helps people apply for jobs automatically.
- Designed the flow so users connect LinkedIn and let the agent handle applications.
- Used AI to scan job listings, match them with user profiles, and fill applications.
- Worked with LangChain and OpenAI APIs to create a smooth job-hunting experience
